

What Is the Vision of Gordon & Associates, P.A., CPAs and Gordon & Associates Financial Advisors, Inc.?

Our vision revolves around pro-active, forward-thinking services that can be broken down into three basic disciplines: Personal Financial Planning & Investment Management Services, Business Advisory Services, and of course the Traditional Tax & Accounting Services. The key is in providing an array of services that address the overall financial goals of the business owner, the troubling areas of owning, managing and building a small business, and the functional level tax and accounting needs of the owner and the business. We hold dear the CPA's ideal of objective, independent service.
